Lorenzo Grosselli

SOC Manager at Trentino Digitale

Trento Area, Italy

Summary

Dopo 20 anni di esperienza in ambienti IT per l'erogazione di servizi a terzi e la gestione della sicurezza sui sistemi centrali e distribuiti in architetture complesse, ho messo a disposizione le mie competenze manageriali e tecniche per coordinare ed evolvere il Security Operation Center in ottica di CERT/CSIRT secondo le necessità e le opportunità, facilitando la crescita delle competenze e la massima espressione dei collaboratori in un ambiente coinvolgente e positivo.

Linux server architecture designer and administrator in complex environment for mid and large companies. VoIP Engineer for Asterisk based solutions. Experience and certification with Microsoft Windows server and client software. Experience and certification with Symantec Antivirus software.

Always interested in SAN, Virtualization and Life Cycle Data Management projects.

Specialties: server architecture, voip architecture, system administration, manage technical group, project and program management, voip, linux, debian, ubuntu, windows, mac
